INFORMATION AND CONDITIONS

2. GENERAL CONDITIONS

POLE TRANSPORT AND DEPOT

To protect the cable cars, the transport of poles and additional skis is allowed only with the use of transport bags. These are available at each station. Please report to our staff. Out of consideration for other guests, no poles may be deposited in the tunnel inside the Matterhorn Glacier Paradise. A pole depot is available for the storage of poles next to the old cable car. Broken poles and poles no longer in use must be disposed of. A container is available for this purpose at the pole depot in the Matterhorn Glacier Paradise station.

MATERIAL DEPOT FURI

Teams having lunch at Furi are asked not to deposit their skis and backpacks at the windows, in front of the kiosk and at the passages. For this purpose, a team depot, which is located opposite the Riffelberg Express, has been set up.

CHANGING FACILITIES

Due to lack of space, there are no changing facilities available inside the Matterhorn Glacier Paradise. The use of the restaurant or the Cinema Lounge as a changing room will not be tolerated.

BEHAVIOUR ON THE SLOPES

The FIS rules form the basis for behavior on the slopes. Coaches and athletes must follow any instructions given by the slope patrollers of Zermatt Bergbahnen AG. You are in high alpine terrain where all barriers must be respected and off-piste skiing is strictly prohibited. The utmost caution is advised. It is strictly forbidden to leave the ski lifts before arriving at the station.

SLOPE MARKING PAINT

It is forbidden to dispose of slope marking paint at Matterhorn Glacier Paradise (toilets, showers and washbasins). The peak has a highly sensitive autonomous water purification system that has recorded major damage in the past due to the paint.

To get water for the mix, you can report to the Matterhorn Glacier Paradise restaurant. In addition, the transport of the slope marking paint must be done in hermetically sealed bags.
